

FIRE RUN AND RESCUE RUN FEES

Essex Township contracts with the Maple Rapids Fire and Rescue Department to service our citizens in case of fire or medical emergencies.

If you have a fire on your property and the fire department responds, you will be billed for the fire run. Check with your insurance company to ensure you have adequate coverage for fire run fees.

If you have a medical emergency and call 911 for an ambulance, Central Dispatch will assist you in determining if the call requires the sending of rescue, based upon medical necessity. With rescue service provided to our citizens, priority 1 or 2 calls, or an accident with possible injuries, require the dispatching of rescue in addition to an ambulance. The fee for a medical rescue run is \$ 200.00. If equipment is needed for extrication, for example a car accident or a machinery accident, then the fee is \$ 400.00.
